To Members of the Joint Committee on the Economic Report:

For the information and use of members of the Joint Committee on the Economic Report and other interested persons, there is transmitted herewith an Index of Joint Economic Committee Publications which covers all printed publications issued by the committee since its establishment. I am sure this document will do much to make more readily accessible the important investigations and findings of this committee.

LETTER OF SUBMITTAL

JANUARY 2, 1953.

The Honorable JOSEPH C. O'MAHONEY,
Chairman, Joint Committee on the Economic Report,
United States Senate, Washington, D. C.

DEAR SENATOR O'MAHONEY: The number of publications of the Joint Committee on the Economic Report has been growing to the extent where it has become increasingly difficult to turn quickly to committee statements and materials on a given subject, or to be sure that any list of citations to committee studies and hearings is complete. To meet this need, the staff has had frequent requests from members of the committee, other Members of Congress, the press, students, and business-research organizations for a consolidated index of committee publications.

This index covers all publications of the Joint Committee on the Economic Report from its first report submitted in January 1947 to present date, which includes the period from the beginning of the first session of the 80th Congress through the second session of the 82d Congress.

Wolcott, Michigan (1947–53; vice chairman 80th Cong.).

During the period 1946 to January 2, 1953, the following have served either full time or part time as staff members of the Joint Committee on the Economic Report: Fred E. Berquist, Samuel L. Brown, Rachel A. Chambers, Lester V. Chandler, Joseph S. Davis, Harris P. Dawson, Jr., Virginia P. Dickmeyer, Grover W. Ensley (staff director, 82d Cong.), A. Benjamin Handler, Charles O.
